About the Organizer	<p>The International Poverty Reduction Center in China (IPRCC) was established in May 2005 as one of outcomes of Shanghai Global Conference on Scaling Up Poverty Reduction in 2004. IPRCC was jointly initiated and established by the Chinese government, the UNDP, the World Bank and other international organizations. It is designed for research, training, exchange, collaboration and knowledge sharing in poverty reduction. IPRCC is committed to the internationalization of China's poverty reduction experience, as well as the localization of global experience, so as to forge an integrated platform for poverty reduction and development. Since 2005 to the end of 2022, IPRCC has successfully held 182 seminars, with 5115 participants from 138 countries. IPRCC has developed training textbooks such as "Ten Keys to Understanding China's Poverty Reduction", video textbooks and micro video cases teaching materials. In the central and western regions in China, 15 provinces have been identified as "China Poverty Alleviation Exchange Base". Participants can be arranged to visit the bases for field visits and feel the effects of poverty alleviation policies and practices. IPRCC is also equipped with an international training team that understands business, knows foreign languages and has high quality. At the same time, it has compiled and printed the international training manual for poverty reduction, which has strengthened the standardized management and promoted the high-quality development of project implementation. IPRCC has two training classrooms with an area of 120 square meters, and has the necessary venues and equipment for online training. About the Organizer	<p>Established in 1993, the International Cooperation Center (ICC) of the National Development and Reform Commission (NDRC) is a government institution directly subordinate to NDRC. Under the guidance of the thought on Socialism with Chinese Characteristics for a New Era and the correct leadership of the party committee of NDRC, ICC is willing to make efforts to implement the 2030 Agenda for Sustainable Development proposed by the United Nations and to contribute to build the community of shared future for mankind so that the platform of bilateral and multilateral cooperation and sharing China's development achievements can be set up. Based on the function of international cooperation and committed to the high-quality development, we will always adhere to the overall work of the party and the country as well as the key work of NDRC. Presently, ICC, working in with NDRC, has become the major institution which supports a series of international cooperation mechanisms in the construction of Belt and Road Initiative and international capacity cooperation and the new-type comprehensive think tank involving different fields such as policy research, international cooperation, planning consultation, high-end training, foreign affairs services, etc. ICC is a member of the joint conference on international cooperation of NDRC as well as a member of the leader group office of promoting the construction of Belt and Road Initiative.</p> <p>1. Main functions of ICC:</p> <p>-- Consultation. ICC deeply participates in the major theoretical research and top-level design for the national development and reform work and provides intellectual support for the work of the Party Central Committee, the State Council and NDRC.</p> <p>-- Mechanism implementation. ICC is in charge of implementing the multilateral or bilateral negotiation and cooperation mechanism established by NDRC and foreign governments. Also, ICC is making efforts to promote the construction of Belt &amp; Road Initiative and the connectivity of strategy and planning, mechanism, platform and project in international capacity cooperation.</p> <p>-- Public diplomacy. ICC undertakes the work of organizing international exchanges between governments, institutions and enterprises, formulating cooperation plans, providing policy consulting services, conducting international training and promoting international cooperation.</p> <p>-- Assisting local governments. ICC provides policy guidance, prepares developing plan and builds cooperation platform for local governments in order to help them develop higher-level open economy in the new-round reform and opening up.</p> <p>-- Guiding the orientation of public opinion. On the basis of the advantages of theoretical innovation and international cooperation, ICC properly guides the orientation of public opinion and contributes to the national development and reform as well as opening up by propagating high-quality thoughts with objectivity, scientificity and predictability.</p>	

	<p>-- Providing foreign affairs services. ICC undertakes the foreign affairs work from institutions of NDRC and organizes various types of international conferences to guarantee the key work of NDRC.</p> <p>2. Brief introduction of foreign aid work: ICC makes full use of the advantages of relevant departments and bureaus of the National Development and Reform Commission and the Academy of Macroeconomic Research. Over the years, a large number of experts have been gathered to make great contributions to recipient countries in terms of economic policy interpretation, planning formulation, and international cooperation. As of the end of 2022, ICC has implemented more than 400 foreign aid training programs. It has invited more than 18,000 officials from more than 130 countries and regions. There are more than 20 themes, mainly covering the "Belt and Road" Initiative, macroeconomics, infrastructure, urbanization, China's experience sharing, public management, capacity cooperation, climate change, medium and long-term planning. Over the years, ICC has organized and implemented 44 projects under the "Belt and Road" initiative, training more than 1600 officials from countries along the route. ICC has made great efforts to publicizing the "Belt and Road" initiative, interpreting Chinese policies and measures, sharing development experiences, and promoting people-to-people bonds in countries along the route.</p> <p>3. Overview of the executive team: ICC has more than 30 professional and executive staffs for foreign aid training project, who have participated in foreign aid training and related international cooperation projects for many years, including 6 members with more than 8 years of foreign aid training experience and 7 members with more than 6 years of foreign aid training experience. There are 4 members with 5 years of foreign aid training experience, and more than 13 members with 4 years or less of foreign aid training experience. Their working languages involve English, French, Spanish, and Russian. Among them, 8 people has passed the TEM-8 and 7 have returned from studying abroad with rich experience in foreign affairs and international cooperation. Meanwhile, other research teams of ICC can also participate in the work of foreign aid training projects to ensure the successful implementation of the project.</p>
Seminar Content	<p>Sponsored by the Ministry of Commerce of the P. R.C., the program is as follow: China has won an all-round victory in the fight against poverty in 2021, which has greatly enhanced the people's sense of gain, happiness, and security, completely changed the appearance of poverty-stricken areas, improved production and living conditions, and improved the quality of life of the people. China hopes to share its experience in poverty reduction with the world through deepening the international cooperation of the initiative "Belt and Road", and is willing to work with relevant parties to promote the development of global poverty reduction and realize the long-cherished wish of common prosperity. However, the epidemic has had a great negative impact on the economic development of many countries, especially developing countries, and has caused the extremely poor people around the world to return to poverty. Therefore, building the "Belt and Road" into a "Road to Poverty Reduction" is also of great significance for promoting the sustainable development of the "Belt and Road". Through this seminar, we will actively share China's experience and lessons in the process of social sustainable development and poverty reduction with developing countries, and inspire more developing countries to find their own poverty reduction path through our own poverty reduction experience and overcome the negative impact of the epidemic as soon as possible, restore economic development, further strengthen exchanges and cooperation between countries, build a bridge for mutual learning and exchanges, and make greater contributions to the in-depth development of relations between countries. In addition to the rich program, we will also take participants on a study tour to two representative Chinese cities, Shanghai and Wuxi. Shanghai is a national central city, a super-large city, the center of China's international economy, finance, trade, shipping, and technological innovation, and one of China's famous historical and cultural cities; Wuxi is a prefecture-level city in Jiangsu Province, one of the central cities in the Yangtze River Delta region, an important scenic tourist city, a national historical and cultural city, and an important part of the Shanghai metropolitan area and the Suzhou-Wuxi-Changzhou metropolitan area. The in-depth visit to the city to examine the current situation of local development and hold discussions with local enterprises will help participants to further understand China's regional development strategy and precisely match the practical cooperation needs of the developing countries.</p> <p>Lectures: Public Courses</p>
